+ Cabling and Ground Kit

## Macro Streetworks

Turnkey hardware streetworks solutions including antenna, pole and enclosure, in a height range of 10 - 25 meters, deployed in new sites or to replace older infrastructure. Alpha Wireless's sleek macro streetworks solutions greatly reduce your planning time when compared to traditional, bulky lattice towers, without compromising on the coverage or capacity of your site.

- 📶 One dedicated partner to manage every detail of your deployment. Experience a simplified, cost-effective process from planning to installation.
- 📶 Fast approval times and quick installations in areas with strict zoning restrictions.
- 📶 Delivers high performance with minimal visual impact.

One-day installation

Lower total cost of site

Suitable for suburban and rural areas

Macro performance, Small Cell footprint
